

The diagram consists of two vertical rectangular boxes, one on the left and one on the right, both with black borders. The left box contains the text 'Xml layout file' in the upper half. The right box contains the text 'Java Class' in the upper half. To the right of the right box, the text 'Android Manifest' and 'Activity Tag' are stacked vertically. This layout suggests a flow or relationship from the XML layout file to the Java class, and then to the Android Manifest Activity tag.

Xml layout file

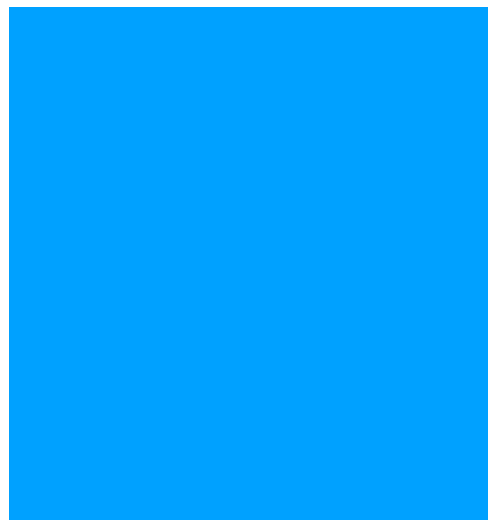

Java Class

Android Manifest
